**Who lives here:** Owners Fabrice and Jean-Eric, who both work in fashion.

**Style of home:** This sophisticated summer house, located in the south west of France near Bordeaux, is the result of renovating a 52-sqm junk-filled storage shed on Jean-Eric's lakeside property. The tiny space is big on style, with white surfaces, seamless storage solutions and a mix of designer and global artisan pieces.

 The owners enlisted the help of interior designer and long-time friend, Dominique Cha. The project took six months to plan and six months of construction to complete.
